## Continental Congress and the President General's Project to Enrich the National Society

SCOTT BRAMAN

THIS MONTH BEGINS my official visits to spring conferences, and I look forward to greeting you, the members, to express my appreciation for your unselfish gifts and service to the National Society. It will be an honor to personally present certificates to

the chapters that give \$6 per member throughout the Young Administration in support of the President General's Project. I look forward to hearing of the many ways in which you are Honoring our Heritage, Focusing on the Future and Celebrating America!

The Employee Service Awards Ceremony is a special event at which we recognize the milestone service of many of our employees. On February 4, we honored 21 service award recipients whose service milestones ranged from 5 to 35 years of service. We are fortunate to have such loyal and dedicated staff members.

New applications continue to arrive in large numbers. Thanks to your efforts to recruit new members to DAR and help prepare their application papers, our hardworking Genealogy staff verified 13,769 papers and approved 13,906 applications in 2013, breaking a record set in 1921! Women want to become a part of the largest patriotic lineage society in America, so please invite them to visit your chapter!

The Young Administration looks forward to welcoming you to the 123rd Continental Congress June 25-29, 2014. The number of reports has been decreased and the length of the educational forums has been increased. Rather than a business session on Friday afternoon, we will have an expanded DAR School Supper and an opportunity to hear from the

student representatives. We hope you will enjoy the interactive, educational and fun evening planned for Friday night. Please carefully review the Congress schedule in this issue of the newsletter and make plans now to attend.

One important component of the President General's Project addresses needed upgrades to our beautiful Headquarters. During the winter, the cooling tower and pump system were replaced, providing greater temperature control as well as energy savings. Project funds also made possible the installation of high-speed fiber optic cable to expand our Internet bandwidth, thereby allowing improved online access to GRS records by staff and the many volunteers who assist prospective members with application papers. We also will be able to utilize more webinars and videos for leadership training and membership recruitment. One other exciting enhancement is the installation of solar panels on the roof of Constitution Hall. This is a major investment not only in our building but also in the future. The estimated savings over the panels' 30-year life span is \$1 million.

March is Women's History Month, and I know you will enjoy the stories in this issue of *American Spirit*. Each article features strong women, just like the ones who built our magnificent Society. Please consider honoring a woman who has made a contribution or a difference in your community with the Women in American History Certificate available from the DAR.

I am deeply grateful to each of you for all you do in your communities to Celebrate America!

*Lynn Forney Young*
