THE NARRATIVE SECTIONS

The "Direct Relations" section reports the details of individuals who have a direct family connection to [Charlie Wade Reynolds](#). The section is broken into sub-sections for each generation, within which the individuals are listed in order of closeness of relationship. The sequence numbers are used throughout the document to cross-reference back to the detailed entry of an individual.

An "Indirect Relations" section reports the details of individuals who do not have a direct family connection to [Charlie Wade Reynolds](#), but do have direct family connections to an individual who is reported within the "Direct Relations" section, or within another section of indirect relations.

Unconnected individuals are individuals who do not have a direct family connection to [Charlie Wade Reynolds](#), nor to any individual indirectly connected to [Charlie Wade Reynolds](#).

With a narrative section, each generation is shown as a separate subsection, within which the individuals are listed in order of the closeness of their relationship to [Charlie Wade Reynolds](#).

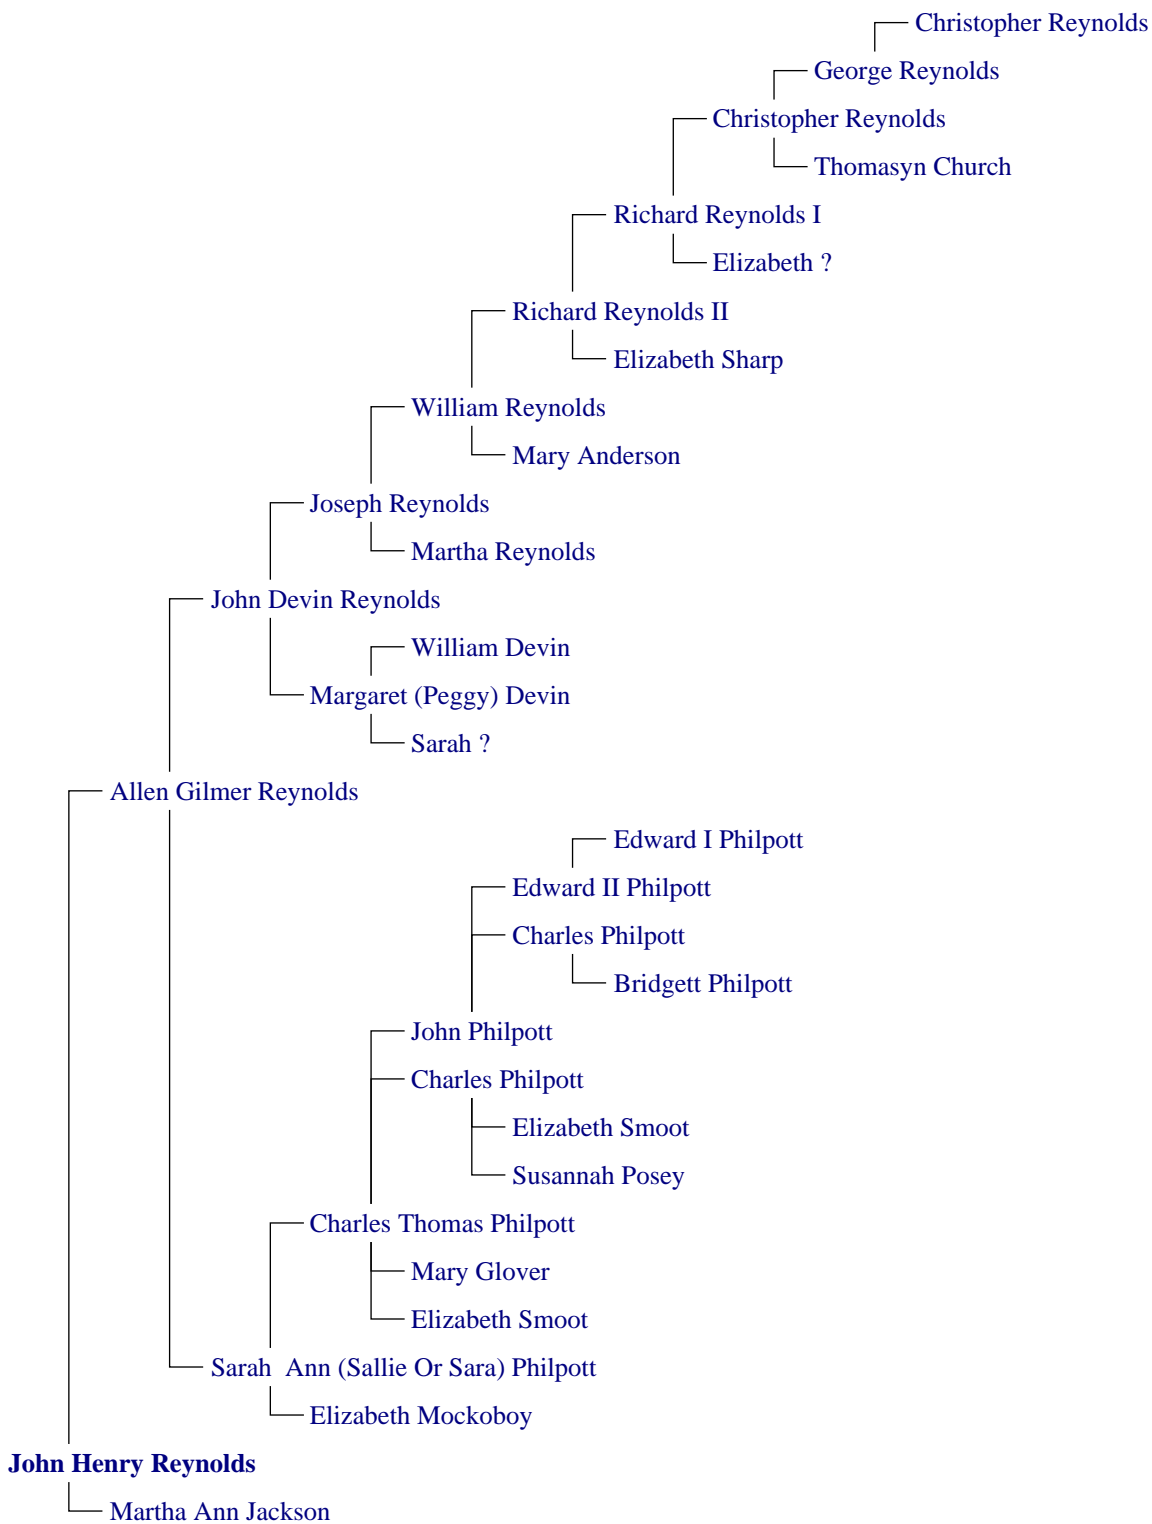

FAMILY TREES SECTION

Each family tree shows the reported children, parents, grandparents and great-grandparents of a family group. In order to reduce redundancy, any family group which is wholly included within another family tree may not be reported separately.

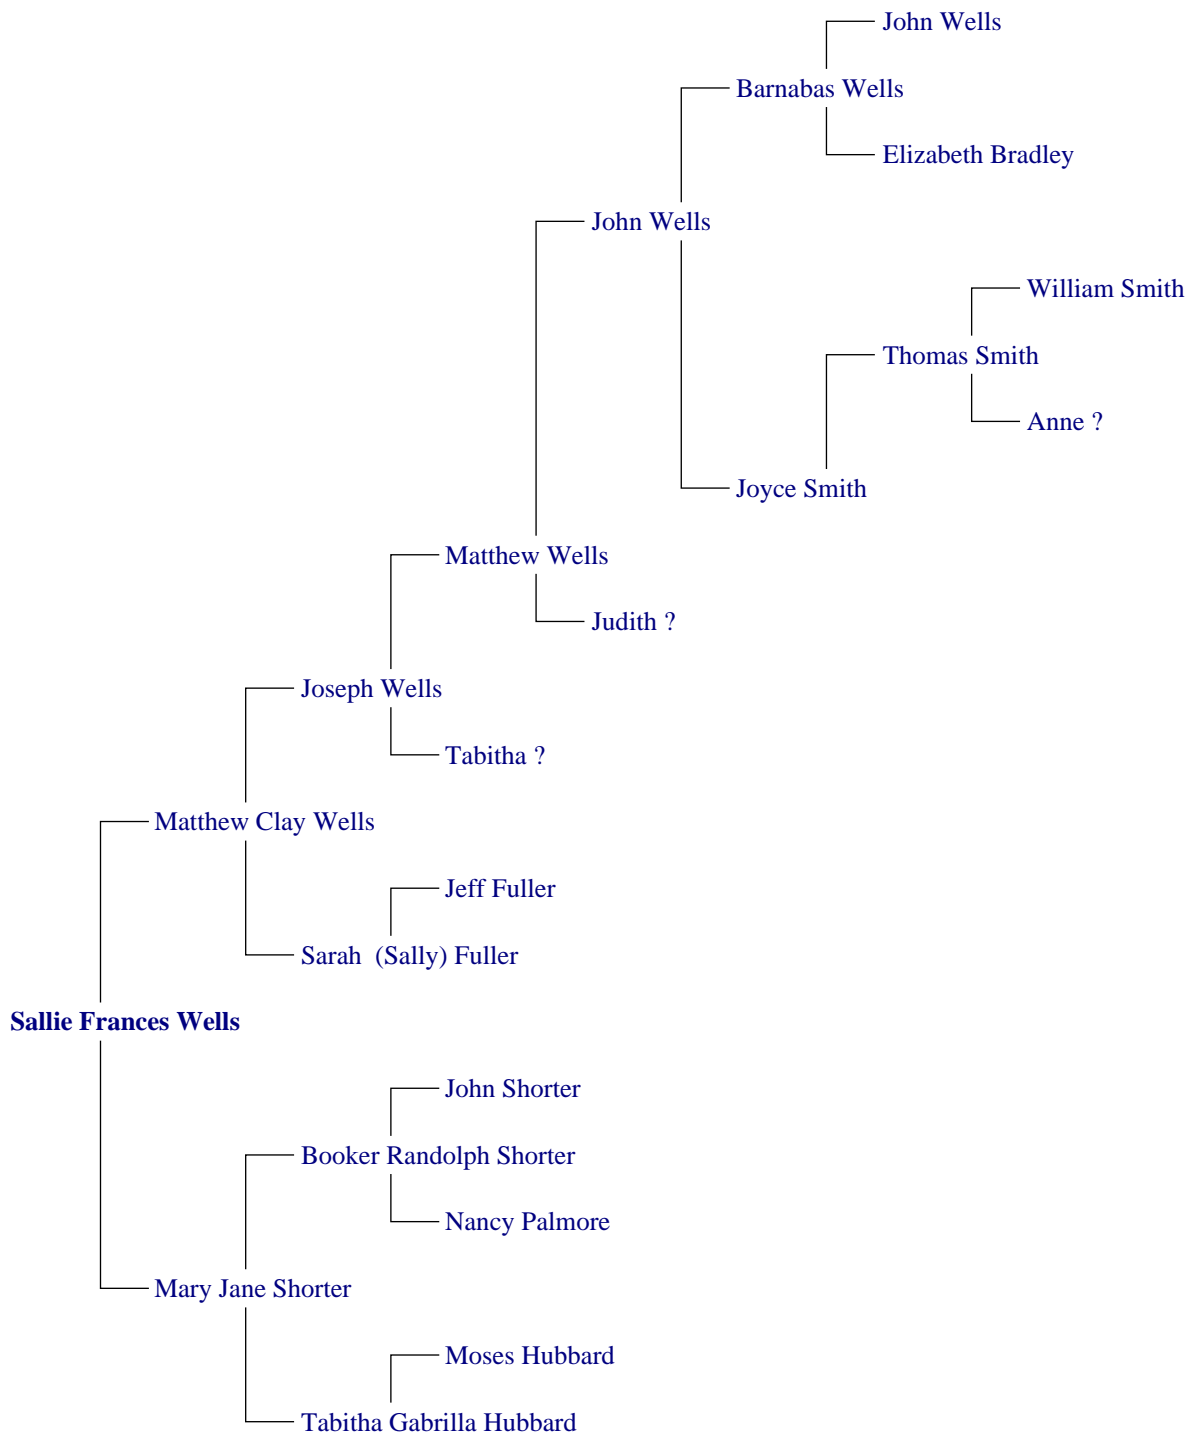

Above each of the great-grandparent boxes (top row), a continuation family tree reference number is shown if the great-grandparent is recorded as a child in the continuation tree. A continuation reference number is also shown to the left of a grandparent or parent box if that individual has siblings reported in the continuation tree; and beneath a child box (bottom row) if that individual has children reported in the continuation tree.

In cases of multiple marriages, a continuation reference number preceded by "=" is shown to the right of a parent box. This number references the previous and/or next tree in which that individual is shown with another partner.

"It just lifts my spirits to help others feel better." She says that it's been her life's goal to visit daily with her friends, neighbors, and others who are unable to get out. The practice started when she was a child. "A neighbor woman used to have me go to the store to get her medicine. I always enjoyed talking to her and helping her."

When asked what advice she has for others, she replied with a smile, "sharing, giving, and helping others always make you feel better."
